

INDEX.

Abdomen, enlargement of, 438.
Abdominal operations and after-care, 408.
Abdominal section in parturition, conditions requiring, 744; after-treatment, 778; practical points, 796.
Abdominal operations sequælæ, 814.
Abortion—for vomiting of pregnancy, 117; habitual, 205; medical and social aspects of, 314.
Abscess—mammary in the virgin, 220; pelvic, 380; pelvic in man, 128; psoas, 61; tuberculosis, treatment of with hot water flushing, 277.
Acetanilid for chancre and chancroid, 402, 602, 792.
Adenitis, cervical, in children, 194.
Africa, kola-nut of, 800.
African arrow poison, 7.
Alabama, medical law of, 378.
Albumen and other proteids, test for, 565.
Albumin in urine, 471; test for, 364.
Albuminuria—caused by antipyrine, 757; in acute catarrhal enteritis, 488; in infantile disease, 728.
Agaricine in night-sweats, 687.
Alcohol and digestion, 566.
Alexander, H. A.—letter, 284.
Alkaloid, opium, new, 18.
American Academy of Medicine, 394.
American childhood from a medical standpoint, 684.
American Electro-therapeutic Association, 87.
Amicrobian fever following arterial obliteration, 680.
Amputation below the knee, 687.
Amyl nitrite—in chloroform poisoning, 549; a cure for hiccough, 396.
Anæsthetics, administration to children, 684; in midwifery, 520; relative value of, 71.
Anatomy, pathological of ectyma, 116.
Anatomy at Oxford University 804.
Ancephalia, 222.
Anderson, M.—Purpura Hemorrhagica and metrorrhagia, 350.
Anders, J. M.—Clinical Lecture, 268, 459.
Angiectcholitis, jaundice from, 298.
Angina pectoris, 471; nature and treatment, 757.
Animals, diseases of in relationship to those of man, 818.
(Ankle, fracture, 61.
Ano, fistula in, 94.
Anti-kidnapping league, 177.
Antipyretics—action of, 750; in childhood, 604; treatment in children, 559.
Antipyrin—causes albuminuria, 756; injections of, for hemeralopia, 290; in puerperal fever, 181, 226; test for pure, 565.
Antipyrin in tonic spasm of parturient uterus, 837.
Antisepsine, Radlauers, 758.
Antisepsis for chiropodists, 71.
Antiseptics—benzin, 285; chloroform as, 168; elixir, French, 380; medication, 241; poultice, [527]; remedy, tannic acid as, 57.
Antrum of Highmore, suppuration of, 382.
Apomorpha, 115.
Appendicitis, 216, 352; surgical treatment of, 715.
Aristol—in diseases of the eye, 509; in venereal disease, 547.
Arkansas, medical legislation in, 260.
Army medical board, 845; medical department, 227.
Arrow poison, African, 7.
Artesian wells in Iowa, 221.
Arthritis, rheumatoid, 89, 99.
Artificial anus, 687.
Aspiration for the treatment of hernia, 371.
Association of American Anatomists, 259.
Association of American Physicians of Berlin, 373.
Asthma and emphysema, 265.
Ataxia, hyposulphite of sodium and silver in, 509.
Ataxia sign, an early, 518.
Atropine in diseases of the heart, 509.
Auscultatory percussion, value of in diagnosis, 665.
Bacilli of Malaria, 562; of syphilis, 564.
Bacteria—pathogenic, 131; 474; Dr. Klein on, 802.
Bacteria of influenza 840.
Bacteriology, 354.
Bagwell, J. F., M. D., letter, 790.
Baffy, J. M., 528.
Barr, A. D., was it relapsing fever, 87.
Bartholinian gland, cancer of, 221.
Beates, Henry—the expectant treatment of syphilitic infection, 498.
Beef-tea, 183.
Behrens, B. M.—Permanent opening of drumhead 186.
Belladonna and electricity, for tachycardia, 381.
Benedict, A. L.—Metric System, 266.
Benzin as antiseptic, 285.
Berkeley, D. H.—Dysentary, 205.
Beri-beri, 306.
Berlin aquarium, 69.
Berlin, Association of American Physicians, 373.
Berlin letter, 69, 329.
Bermuda letter, 787.
Bertrand, J. H., Leprosy, 9.
Bigelow, H. R.—letter, 840.—Electricity in Pelvic Surgery, 592.
Bile pigment in urine, 168.
Biological laboratory, the Da Costa, 525.
Birds, malaria in, 28.
Blackwell, E. T., Malarial Fever with Liver Involvement, 85.
Blackwell, E. T.—Vomiting of pregnancy, 190.

Index.

Bladder—exfoliation in female, 18; extirpation of, 26.
 Blennorrhagia, albuminuria in, 598.
 Blennorrhagic rheumatism, mercury in, 593.
 Bigelow, H. R.—Medical Electricity and Batteries, 453.
 Blood alkalinity of under normal and pathological conditions 804.

 Spear, R. C.—Correspondence, 705.
 Spectacle-frames, construction of, 377.
 Spohn, A. E.—Treatment of carbuncle, 151.
 Sponges, preparation of, 825.
 Starvation and disease, 344.
 State Board of Health, 232; Medical Education Medical Examiners, 374.
 Status epilepticus, 718.
 Stem pessary, 703.
 Sternum for melano-sarcoma, excision of, 479.
 Stenosis of cervical canal, incision vs. dilatation, 717.
 Still-births, life-saving methods in, 246.
 Stimulant in impending collapse, 174.
 Stockton, Chas. G.—Clinical Lecture, 530, 727.
 Stomach—cancer of, 11; motor insufficiency, diagnosis, 757.
 Stomach-tube, appliance to facilitate the insertion of, 401.
 Stomatitis, gangrenous, 284.
 Stools, green, 32.
 Sterility, 441; is it a disease? 399.

Stricture of ileo-caecal valve, treatment of, 397.
 Strophantidin, as a local anaesthetic, 549.
 Strychnia—and hot douche in prostrated labor, 720; as a circulatory stimulant, 509, 687; in chronic alcoholism, 793; hypodermic use of, 57.
 Strychnine as a heart stimulant in pneumonia, 811.
 Subclavian artery compression of, 821.
 Sublimate spray for small-pox vesicles, 287.
 Sugar—alpha-naphtol test for, 565; phenyl-hydrazin test for, 565.
 Sugar quantitative estimates of with Robert's fermentation test 841.
 Sulphaldehyde, action of, 177.
 Sulphonal—in trismus neonatorum, 644; dangers of, 594.
 Sulphuric acid, 433.
 Sunflower plantations as prophylactic against malaria, 198.
 Suppuration of antrum of Highmore, 382.
 Surgeons of National Guard, notice to, 346.
 Surgery, drainage in, 414; pelvic, 340, 156, 159; railway, 327.
 Sutton, R. Stanbury—letter, 751.
 Syphilis—from bite, 886; transmission of, 724; ways in which it may be spread 482; treatment of, 601, 689; bacilli of, 564; infection, the expectant treatment in, 498; with lesion of heart and kidneys, 727.
 Syphilized practitioners, practice by, 261.
 Syringe, aseptic hypodermic, 284.
 Sweating feet, treatment, 550.
 Sweating of reflex origin, local, 458.
 Sympathetic ophthalmia, pathology and treatment of, 593.

Tabs, symptom-complex of, 551.
 Tachycardia—513; at menopause 798; belladonna in, 381; cured with electricity, 427.
 Tait, statement by, corrected 230.
 Take dorsalis, vesica. disturbances in, 551.
 Talane University 843.
 Tape worm, 738.
 Tampon in menorrhagia, 389.
 Tannic acid as intestinal antiseptic remedy, 57.
 Tape worm, cocoanut, for, 177.
 Tatoo marks, method of removing, 885.
 Taylor, R. W.—Treatment of syphilis, 689.
 Taylor D. J. M., 843.
 Teeth—in diabetes, 398; in epilepsy, 136.
 Tenotomy, open and subcutaneous, 429.
 Terpene iodide in diseases of lungs, 386.
 Tetanus—and diphtheria, 18; immunity from, 76.
 Tetany, 584; etiology of 562.
 Tetrahydronaphthalamines, 106.
 Thallin, 832.
 Thialdine, action of, 167.
 Thibet, study of medicine in, 392.
 Thomas, C. H.—Spectacle frames, 377.
 Thomas, J. J.—Letter, 284.
 Thomas, J. J., strychnine as a stimulant, 811.
 Thompson, L. R.—Club-foot, 270.
 Thyroid, resection of, for exophthalmic goitre, 204.
 Tilliacin, 86.
 Tinnitus aurium, etiology of, 832.
 Titles, extra, 447.
 Tobacco-smoking, 116.
 Tobacco, influence on digestion and acidity of urine, 888.
 Toe-nail, simple treatment of ingrown, 397.
 Tongue in scarlet fever, 801.
 Tonsils of children, 169.
 Toxine, cholera, isolation of, 765.
 Tracheotomy vs. intubation, 785.

Trachoma; treatment of, 681.
 Transplantation of tissue from lower animals to man, 514.
 Traumatism of chest, 597.
 Traumatic neuroses, 757; infection, 527.
 Tracheotomy, chloroform in, 307.
 Trephining for epilepsy, 58.
 Trichinæ, vitality of, 606.
 Trichloroacetic acid as test for albumin in urine, 471.
 Trippe, R. J.—Peritonitis, 67.
 Trismus neonatorum treated with sulphonal, 644.
 Tritopine, 344.
 Tubal pregnancy, anatomy of, 887.
 Tubercle bacilli, at point of infection, 646; method of detecting, 315; staining, 175.
 Tubercular poison, mode of entry into body, 522; bronchitis, iodoform in, 754; arthritis, excision, 688.
 Tuberculin, effects in monkeys, 598.
 Tubercule cultures, extracts from, 419.
 Tuberculosis, 22, 49, 68, 81, 175, 181, 258;—solution of Shurley and Gibbes for, 342; of larynx, 336; abscesses treatment of, with hot water flushing, 277; treated with injections of iodoform and guiacol, 485: in children, diagnosis of, 559.
 Tuberculous milk and diseased udders, 105.
 Tumors, cerebral, 167.
 Typhoid fever, 8, 61, 126, 268, 655, 740; rash, 105; and consumption, "antifebrinization" in, 117; chloroform in, 686; new methods of treatment, 547; naphtholine in, 509.
 Typhus fever, influence of warm enemata, 546.
 Udders, diseased, 105.
 Ulcer—Gastric, 271; haematemesis in gastric, 416; bad effect of poultices for spreading, 484; poultices for spreading, 484.
 Umbilical Hernia in children, treatment, 735.
 University of Texas Med. Dept. 804.
 University of Pennsylvania 805.
